**PROPERTY AND CASUALTY DIVISION
ARKANSAS INSURANCE DEPARTMENT**

Dear Mr. Lacy:

The captioned filing was submitted on November 29, 2007.

As part of filing PR 2007-ORU07, we filed to introduce Doctor of Osteopathy (D.O.) codes for various classes that correspond to Medical Doctor (M.D.) classes where D.O. codes were not previously listed. It has come to our attention that the D.O. codes 84158, 84159, and 84160 have already been assigned under the Medical Professional Liability class plan. As such, it is necessary to reassign D.O. codes for the surgery classifications for Otology, Otorhinolaryngology, and Rhinology. In addition, reference to D.O. codes 84290, 84264, 84234, and 84294 were inadvertently omitted from the explanatory material (EM) of the filing, and it is necessary to revise the classification notes for certain classes to reference D.O. codes where appropriate.

Attached are revised EM pages 9-11, and revised classification table pages PR-CT-13, PR-CT-14, and PR-CT-16 reflecting the corrections discussed above. Please substitute these pages with the corresponding page from the original filing. This correction will be reflected in any distribution of the filing and any distribution of the classification table pages associated with this filing.

We apologize for any inconvenience this may have caused.

An extra copy of this letter and a self-addressed stamped envelope are enclosed for your convenience in acknowledging receipt of this material. Thank you for your consideration.

Very truly yours,

Donald J. Beckel, CPCU, ARM
Assistant Regional Manager

The new table reference will be shown as referenced in the following example for Hospital Risks: Table #1(CT) - Hospital Risks.

Additionally, the footnotes will be displayed on the note column next to the class code for which it applies.

Miscellaneous Classification Tables Changes

We are making the following changes:

- Various editorial revisions have been made to the Definitions, Abbreviations And Symbols section to add paragraph subheadings to the definitions contained in the rule. Due to the formatting of the new Classification Table Section, the definition with respect to the "number shown in parentheses" has been deleted. This information will now be shown in the last column of the Classification Table under "Notes", and will no longer display a company use column.
- The Special Areas Of Dental Practice, has been updated to reflect the addition of Oral and Maxillofacial Radiology as a dental specialty based upon information contained in the American Dental Association website (www.ada.org).
- The note applicable to Employed Nurse Anesthetist classification shown in Table #7(CT) Physicians and Surgeons - Additional Charges, has been revised to correct Anesthesiology Codes 80151 and 84151 to indicate 80181 and 84181, respectively.
- The Approved Specialty Boards And Certificate Categories table has been changed to reflect the latest Certificates and Subspecialty Categories information offered by the American Board of Medical Specialties based on information contained in the 2006 Annual Review of ABMS and information available on their website (www.abms.org).

New Doctor of Osteopathy Codes

D.O. (Doctor of Osteopathy) codes are being introduced for various classes that correspond to M.D. (Medical Doctor) classes where D.O. codes were not previously listed. In addition, the notes for certain classes have been revised to reference the D.O. codes, where appropriate. The following codes are being added:
